

## **TechConsult Pro – Company Profile**

### **Company Overview**

**TechConsult Pro** is a software consulting firm based in Mexico City, offering personalized tech solutions for small and medium-sized businesses. Founded in 2016, we help clients design, build, and launch digital products that drive efficiency, growth, and innovation. Our mission is to simplify software development and guide businesses through every step from consultation to deployment and beyond.

We specialize in building scalable custom applications and digital systems that align with each client's specific operational needs and business goals.

### **Service Areas**

We serve clients remotely across Latin America and the United States. On-site visits are available for clients in:

- Mexico City
- Guadalajara
- Monterrey

### **Services Offered**

#### **Custom Web Development**

Tailored web apps built using modern frameworks such as React, Vue, Django, and Node.js.  
*Starting at \$3,200 USD per project.*

#### **Mobile App Development**

iOS and Android apps designed natively or with cross-platform tools like Flutter.  
*Starting at \$4,000 USD per app.*

#### **System Integration Services**

We connect and automate workflows across CRMs, ERPs, legacy systems, and third-party APIs.  
*Projects start at \$2,500 USD depending on complexity.*

#### **Database Design & Optimization**

From initial schema planning to optimization of large-scale queries in PostgreSQL, MySQL, or MongoDB.  
*Consulting packages start at \$1,800 USD.*

#### **Cloud Migration & DevOps**

We migrate on-premise systems to cloud platforms like AWS, GCP, or Azure, and set up CI/CD pipelines.  
*Full migrations start at \$3,500 USD.*

## Sales & Project Workflow

Clients typically go through the following phases:

1. **Initial Consultation** – Book online or via WhatsApp. Free 30-minute session with a consultant.
2. **Requirements Gathering** – We conduct technical interviews and explore current systems.
3. **Proposal & Quote** – A detailed project scope and estimate is delivered within 3–5 business days.
4. **Contract & Kickoff** – Once signed, project planning and environment setup begins.
5. **Development** – Agile sprints with biweekly demos and stakeholder feedback.
6. **Testing & Deployment** – QA and security audits followed by launch.
7. **Ongoing Support** – Includes maintenance, bug fixes, and performance updates.

## FAQs for Customer Support

### **Q: How can I schedule a consultation?**

A: You can schedule directly on our website or send us a message on WhatsApp. We usually respond within 1 hour during business hours.

### **Q: Do you work with international clients?**

A: Yes, we serve clients across LATAM and the U.S. All consultations can be done remotely.

### **Q: What industries do you serve?**

A: We have worked with clients in fintech, logistics, retail, healthcare, education, and e-commerce.

### **Q: Do you offer financing or payment plans?**

A: Yes. For projects over \$5,000 USD, we offer milestone-based payments and custom schedules.

### **Q: Can I update my app after the launch?**

A: Absolutely. We offer post-launch support packages and can extend development as needed.

### **Q: What if I already have a development team?**

A: We can work alongside your team as consultants or take over specific modules or integrations.
